

Notes from 9.29.2011 Earthdata (Coherent) Standing Meeting

CURRENT ACTION ITEMS:

1. Michelle to send out the internal documentation site URL address to Standing Meeting attendees via e-mail, by 9.30.11. The URL for the internal site is: <http://earthdata.nasa.gov/about-eosdis/system-description/earth-data-internal-documentation>

CURRENT REMINDERS:

1. Michelle will provide a full-list of NCRs with details on the internal documentation site weekly until the trouble-ticketing tool is implemented. If there are questions on about the status of specific NCRs please be bring them up during the telecon. Ticket tracking tool will be implemented by December.

2. Please e-mail Carol and/or Dave Bruton with updates to the EOSDIS News Section, due ongoing.

3. Matt to determine level of effort needed for Reverb to support portable devices, by January 2012.
